

PLANNING YOUR KITCHEN

#77

 SWISS STORAGE DESIGN

COOKING BEGINS WITH ORGANISED UNITS

您正在規劃新的廚房嗎？

想要100%使用你的廚房空間嗎？

如果你想要擁有兼具設計與時代感的功能性廚房

PEKA將會是你最佳的選擇

ARE YOU PLANNING A NEW KITCHEN?

Then do it with peka. We will pull out all the stops to ensure that your kitchen not only looks good, but also – and more importantly – makes your work easier and takes some of the stress out of your day-to-day life. From spacious larder unit pull-outs and smart corner storage solutions to handy waste systems, peka's ingenious mechanisms and kitchen and furniture fittings will soon have you feeling right at home in your new or renovated kitchen.

MORE THAN JUST A PLACE TO COOK

A tastefully designed kitchen is the heart of a home – especially if it is open-plan, as is often the case nowadays. It is a place to spend quality time with your family, cook and catch up with friends, enjoy a glass of wine with someone special – or even have a bit of quiet time alone at the breakfast bar, with all the ingredients for your favourite muesli to hand. Since it plays such a central role in your household, your own custom kitchen should reflect your tastes and your joie de vivre whilst also providing comfort and convenience.

A PRACTICAL KITCHEN, DESIGNED WITH YOU IN MIND

Kitchens are usually planned on a computer, using simulations to help you visualise what your kitchen will be like before it is built. However, a kitchen's interior is far more important than its exterior – having a ready response to every storage need makes your life so much easier.

So when you are planning your kitchen, take a minute to consider where you can store your groceries, pots and pans, cleaning products, tableware and more so as to make best use of space and always have the items you want on hand when you need them. We can offer a wealth of practical advice to help you create the kitchen you want: a practical kitchen, designed with you in mind.

USE OF SPACE

«Our kitchen is great because we can use every last inch of space in it.»

善用廚房的每一吋空間

Choosing the perfect kitchen units is not enough to guarantee you the perfect storage space. Only by selecting the right units for your kitchen layout and the right interior fittings to match can you be sure of enjoying maximum accessibility and convenience. peka's corner unit and larder unit pull-outs make full use of the space in your kitchen units and keep all your tools and ingredients within easy reach.

Storage space: use every last inch of space.

→ **Magic Corner corner pull-out**

開放全拉式小怪物

Thin-walled pull-out shelves and dividers make the most of the available space.

→ **Extendo pull-out shelf**

開放式盤籃

Narrow pull-outs give an excellent overview of all your stored items.

→ **Standard 150 larder pull-out**

門板式盤籃高身櫃

Height-adjustable shelves help you to use your storage space flexibly.

→ **Convoy larder pull-out**

Double your storage space with dual-level shelves.

→ **Extendo extra shelves**

開放式盤籃加高架

ACCESSIBILITY

«My perfect kitchen? One where everything I need for cooking is always within easy reach.»

我的完美廚房-所需物品均在觸手可及之處

When planning your unit interiors, make sure you can access all the storage space they offer. Spaces that are very high up or very low down – or very deep in the unit – can be hard to get to. peka's storage mechanisms and systems bring everything within easy reach – however far away it may have seemed at first glance.

Easily reach to the very top, bottom or back of your units.

→ Pegasus shelf lift

升降吊櫃收納系統

Pull-out systems for easy access and a clear overview.

→ Extendo pull-out shelf

開放式盤籃

多功能連動收納架

Good organisation = opening fewer cupboards when you cook. Cutting out unnecessary movements.

→ Kitchen Tower and Snello base unit pull-outs

小側拉

Easy access to unit contents from three sides.

→ Pleno larder pull-out

半怪物系統

FOOD STORAGE

«My units should be organised to suit me,
not the other way around.»

規劃自己的專屬廚房

The major advantage of centralised food storage: you know exactly where to find what you want and you do not need to waste time searching for it. An organised food storage system saves you both time and money: it eliminates the need for walking around and, more importantly, cuts out unnecessary duplicate purchases. peka's contemporary kitchen larder organisers are highly versatile and can easily be adapted to suit whatever you want to store.

A clear view from the side.

→ **Standard larder pull-out**

門板式盤籃高身櫃

Shelves with closed bases stop food from falling through and are easy to clean.

→ **Extendo pull-out shelf**

開放式盤籃

Flexible systems for dividing up your storage space.

→ **Wooden boxes**

木製分類盒

Store your groceries in one central unit, not in different cupboards.

→ **Convoy larder pull-out**

門板玻璃高身櫃

Store bottles and condiments together in a smart base unit pull-out.

→ **Snello base unit pull-out**

WASTE DISPOSAL

«We hardly ever think about waste, but it causes so many problems in the household.»

為了維持廚房整潔，需要分類完善的垃圾桶

Which piece of kitchen equipment is used most often? The waste bin, of course. With that in mind, it is worth spending a few minutes thinking about waste disposal when you plan your kitchen. After all, a well-planned waste system makes it a lot easier to clean up. A good waste system – like peka's, for instance – should be modular and should be tailored to your requirements.

What do you want to store in your waste system?

→ Oeko waste system

Dishwasher safe materials and an easy-clean design

→ Oeko recycle bins

Changing bin bags is child's play when your bin has a smart tensioning system
→ patented tensioning system

Choose a bin that lets you fill bin bags right up

→ Müllboy Big waste system
圓型旋轉垃圾桶

與周圍素材共同營造出一個和諧空間
打造出你的專屬廚房

*FRONT PANELS, UNITS AND
FITTINGS FORM A
HARMONIOUS WHOLE*

Nowadays, kitchens open onto living areas, creating a shared space for cooking, living and relaxing. So it is only natural for you to pay more attention to the materials and surfaces you use in your kitchen. And it is only natural to want outstanding design on the inside of your units too.

We have partnered Fioro shelves with oiled oak rails that blend seamlessly with wooden front panels and warm colours. These attractive interior fittings can also be combined with glass, compact laminates, aluminium, or any other material of your choosing. Let your creativity flow!

A PERFECT MARRIAGE OF WOOD AND METAL

Warm, natural colours and materials are the latest trend in the furniture world. Wood and metal – for instance, oak and steel – complement one another and make for aesthetically appealing pieces.

The lines between the kitchen and the living area are becoming increasingly blurred, making style, design and functionality more important than ever. When teamed with light wood, anthracite interior fittings made of coated steel project a subtle air of understated elegance.
